SUMMARY

Frontend Developer with more than 2.5 years of experience in JavaScript, React.js & NextJs. Skilled in creating user-friendly, responsive web applications with a focus on performance optimization. Eager to apply my expertise in frontend technologies to contribute to innovative and impactful projects.

SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript, Java
Frameworks & Libraries: React.js, NextJs, NodeJS, ExpressJS, Redux, Angular, Material-UI (MUI), Tailwind CSS
Technologies & Tools: Webpack, Babel, Git, GitHub, GitLab, Axios, RESTful API

WORK EXPERIENCE

Big Brand Bucket Pvt. Ltd.   Apr 2024 – Present
Software Engineer - Frontend   *Gurgaon, Haryana*

- Developed the **Dhanbid website** from scratch using **Next.js**, implementing routing, custom filters, a search bar, and separate dashboards for buyers and suppliers.
- Created **Smart Irrigation** featuring a mobile-optimized UI and integrated **Google Maps** for visualizing location data.
- Ensured full **responsiveness across devices** by focusing on clean UI/UX and streamlining user interaction flows.
- Improved **user engagement by 35%** through performance optimization, faster loading times, and intuitive navigation across web modules.

Cognizant Technology Solutions India Pvt. Ltd   Aug 2022 – Feb 2024
Jr. Software Engineer

- Integrated frontend **with backend APIs for real-time data** and seamless user experience.
- Developed a team attendance web app, replacing Excel tracking and **incorporated** a calendar view to visualize up to **3 months of data**, improving **efficiency by 30%.**
- Contributed to code reviews, **diagnosed** UI issues, and **enhanced** performance, achieving a 15% faster load time.
- Maintained and extended **Java-based APIs** (Spring Boot), ensuring robust and secure backend services.

PROJECTS

Tune Masters-Academy   🔗 https://tune-masters-academy.vercel.app/
Technologies: Typescript, React.js, Next.js, Tailwind CSS, Framer Motion

- Boosted customer engagement by 40% with responsive layouts and interactive animations using Framer Motion.
- Built course modules for musical instruments with efficient navigation and engaging UI.

Hunting-Coder   🔗 https://huntingcoder-delta.vercel.app/
Technologies: JavaScript, React.js, Next.js, Tailwind CSS, HTML5

- Developed a dynamic blog website with a user-friendly query form.
- Deployed on Vercel, achieving a 100% Lighthouse score for performance and accessibility.

Portfolio Website   🔗 https://portfolio-deepak-gupta.vercel.app/
Technologies: JavaScript, React.js, Next.js, Tailwind CSS, Framer Motion

- Developed a component-based, mobile-responsive portfolio web-based app featuring different sections.
- Integrated animations and transitions with Framer Motion to enhance user experience, ensuring smooth navigation and visually engaging interactions across all sections.
